HISTORY OF CHAMPIONSHIPS

1950 - The Nashville Area Junior Chamber of Commerce establishes the Clinic Bowl as a Middle Tennessee high school football bowl game benefiting Vanderbilt Physical Therapy Clinic.

1969 - First year of playoffs. Four teams from each of the three classifications play in a two-round playoff.

1972 - Playoff format expands to eight teams from each classification.

1977 - Playoff format expands to 16 teams from each classification.

1982 - TSSAA selects the Clinic Bowl as host for the Class 1A, 2A and 3A state high school football championships. It is the first time all three games are played on the same day at the same location.

1985 - Playoff format expands to 32 teams from each classification.

1993 - High school football classification expands from three to five classes and the state championships are expanded to a two-day event for 1A-5A title games.

1994 - For the first time, the Clinic Bowl is televised on network television in Nashville and Memphis.

1997 - Schools are divided into two divisions based on whether or not need-based financial aid is a part of the school's athletic program. Schools offering need-based financial aid are placed in Division II, while the remaining schools are placed in Division I. This creates seven championships, five for Division I and two for Division II.

2000 - The Division I Championships are named the BlueCross Bowl and relocated to MTSU's Floyd Stadium.

2005 - BlueCross signs on as a title sponsor of the Division II Championships (renamed BlueCross Bowl) and the games are relocated to MTSU's Floyd Stadium.

2007 - The BlueCross Bowl Division II Championships reorganize from three classes to two classes.

2009 - The BlueCross Bowl Division I Championships reorganize from five classes to six classes. Also, the Division I and II championships move to the same weekend at Tennessee Tech's Tucker Stadium.

2017 - The BlueCross Bowl Division II Championships reorganize from two classes to three classes.

"I don't know why I have been so successful in my life's work, but I do know that being able to give back – to help young people get an education, to assist adults who want to go back to school, to allow children to receive excellent medical attention, and now, to have the potential to save 60,000 lives each year through early detection of rectal-colon cancer – this has given me more satisfaction and pure joy than anything else I can imagine doing with my life." – James W. Ayers
